What is Halotherapy?

Long recognized in Europe, Halotherapy is a unique and natural therapy using salt particles for improving breathing ailments, skin conditions and promoting relaxation.

Halotherapy is beneficial for everyone. It's antibacterial properties clean the lungs and skin which helps to prevent infection. Salt also produces negative ions that promote brain chemistry changes to improve mood, release stress, boost energy and help sleep.

Inhalation of salt aerosol, a well-known decongestant, is clinically proven to decrease inflammation, cleanse the respiratory system of bacteria, viruses, pollen and pollutants, as well as speed up the elimination of toxins.

SAFE | EFFECTIVE | DRUG-FREE

Great for children!

Synergy Healing helps focus on children.

Have you ever tried to irrigate the nose of a child with saline solution or use an inhalation mask?

Halotherapy makes it much more **simple and effective.**

If you or your child have been on medication for a while, and the treatment outcome is not satisfactory, Halotherapy may be beneficial.

Services

USING 2 or more treatments will exponentially help the healing process.

- Molecular Hydrogen
