

OZONE THERAPY

Ozone Therapy Stimulates oxygen utilization. Oxygen is our most critical nutrient but it is not what you take in but what you utilize. Decreased Oxygen Utilization causes mitochondria decay, which is the underlying cause of degenerative condition. Ozone is an exceptional mitochondrial stimulant and our research shows it drastically increases heavy metal detoxification through perspiration.

IONIC FOOTBATH

Scientific research shows that patients who receive an ion foot detox have higher amounts of toxins in their urine and stool within three days of treatment, further demonstrating that the treatment does indeed enhance detoxification.

And finally, the Pacific College of Health and Science also quotes a study that demonstrates a significant **reduction in aluminum and arsenic levels** in the patient's blood after ionic cleansing.

LASER ENERGETIC DETOXIFICATION (LED)

This natural modality combines homeopathy with a cold laser to assist individuals in eliminating the various toxins that we all accumulate in our bodies.

A homeopathic, multi-chord nosode of the identified toxins is imprinted on the day of your evaluation appointment. These homeopathic remedies are placed in a small glass vial and a very powerful Infrared light is pulsed through the homeopathic vials into the areas where the toxin has accumulated to drive the energy of the homeopathic remedy into that area, causing the chemical or toxic metal to begin releasing.

BIOFLEX® PHOTOBIOIMODULATION

BIOFLEX® Technology uses super luminous and laser diodes to treat diseased or traumatized tissue with photons. These particles of energy are selectively absorbed by the cell membrane and intracellular molecules, initiating a cascade of complex physiological reactions, leading to the restoration of normal cell structure and function.

BIOFLEX® LASER PROBES

This instrument effectively targets superficial nociceptors, reducing the sensation of pain and increasing arterial perfusion. The red laser probe has many additional therapeutic benefits.

LYMPHATOUCH® APC

LymphaTouch is a myofascial decompression therapy device precisely controlling negative pressure to increase lymphatic drainage, break

down scar restrictions and release tight fascia. In chronic illness Lymph stagnation makes people feel ill.

BCX

Unlike PEMF, BCX uses much higher Hertz frequencies to target specific things in the body. This natural modality involves using gas tubes, conductive foot plates, and a variety of frequency delivery wave forms like sine, square, and sawtooth hertz frequencies to help with a variety of ailments.

COMRA

Coherence achieved through modulation of different radiances. Combines radiant properties Laser, color light, magnetism and ultrasound. ComRa technology originated in the Soviet Union many decades ago and can best be described as a non-needle, non-invasive powerful form of meridian based healing. ComRa is usually done in combination with Wave therapy and PEMF.

SALT CHAMBER

A device called a halogenerator grinds medical-grade salt into microscopic particles and releases them into the air of the room. Once inhaled, these salt particles absorb irritants, including allergens and toxins, from the respiratory system. This process breaks up mucus and reduces inflammation, resulting in clear airways.

Regenerate Cells**

PH: 702-749-6783

Do you want to live free from incapacity, limitations, and diseases that so frequently affects the quality of life?

Lethargy, neuropathy, rheumatoid arthritis, plantar fasciitis, diabetes, high blood pressure, brain fog, etc.

HEALTH AILMENTS

Dr. Miller can concisely and successfully gather objective data of any individual's health challenges. By using state of the art non-invasive means through a Zyto bio-impedance cradle and proprietary breakthrough Asyra & Zyto software, Alfa Thermometry, MaxPulse, & SECA, Dr. Miller can instantaneously obtain a thorough summary of a patient's overall well-being. By doing so, Dr. Miller is able to find the root cause of any health challenges and guide patients on the path of natural recovery.

STACKING SYNERGISTIC THERAPIES SIMULTANEOUSLY = EXPONENTIAL RESULTS

The key to exponential healing is combining 2 or more of these modalities simultaneously.

LIVE O2 WITH ADAPTIVE CONTRAST

- ♦ Oxygen surplus shuts circulation down while oxygen depletion activates circulation.
- ♦ Alternating depletion provokes maximum circulation and then oxygen surplus supercharges the blood to take oxygen where it needs to go.
- ♦ Oxygen only systems prevent depletion which limits circulation to normal flow patterns.

MOLECULAR HYDROGEN INHALATION

1. Acts as a powerful Antioxidant
2. Is an anti-inflammatory
3. Reducing the exercise-induced rise in lactic acid
4. Supporting repair and recovery from injury or overtraining
5. Protects against metabolic conditions. Decrease in blood sugar & cholesterol levels.

Bio-Mat far-infrared light waves & the highest vibrational frequencies into the body.

1. The Bio-Mat also produces negative ions, nature's energizer, which deliver a molecular level massage.
2. This accelerates and deepens all healing and cleansing processes.
3. It balances pH by decreasing acidity and is considered the 'master power switch' that activates the body's entire cellular communication system.

PEMF

- ♦ Improve energy, circulation, blood and tissue oxygenation, sleep quality, blood pressure and cholesterol levels, the uptake of nutrients, cellular detoxification and the ability to regenerate cells
- ♦ Balance the immune system and stimulate RNA and DNA
- ♦ Accelerate repair of bone and soft tissue

WAVE THERAPY ACOUSTIC PRESSURE WAVE

Wave Therapy is FDA cleared for circulation and University Study shows the efficacy for vasodilation.

NANEAU HYDROTHERAPY: Unlike any other water on the planet

Naneau Hydrotherapy has up to 500% more traditional oxygen than normal water, and billions of times more nanoscopic bubbles. These nano oxygen bubbles penetrate the tissues directly, permeating the fluid in the spaces between tissue cells and connective tissue, and through the inflammation into the hypoxic cells. Delivering higher levels of oxygen than has ever been possible before, and not only oxygen but any gas or blend of gases can be delivered. There are hydrogen nanoplastoids, long chain peroxides and a restructuring of our water that truly sets it apart from anything else on the market.

THE BODY ACTIVATOR

The machine stimulates the muscles to improve mobility, function, and overall balance in the body. The wave motion created by the mechanism allows energy to flow easily while increasing circulation throughout the entire body. As a result, all other systems of the body (such as lymphatic, nervous, digestive etc.) begin to function more efficiently, so the assimilation of foods and nutrients improves and the elimination of wastes is naturally increased.

THERAPHI

Theraphi is the next evolution in the healing technologies pioneered by Nikola Tesla, Royal Raymond Rife, George Lakhovsky and Antoine Priore. It's a bioactive plasma field device, modelled after the famous PRIORE device which was so successful against many diseases in France, particularly cancers and cysts. The Theraphi device creates precise frequencies for the production of "Bio-Active Field" which affects the body's cellular regenerative system – the actual "healing" system in the body. In this new revolutionary system, radio frequencies are used as a carrier wave for various frequency signatures. The robust solid-state emitters, combined with a unique mixture of noble gases produce an extraordinary bio-active implosion, negentropy life-giving plasma field. The Theraphi's unique plasma generates longitudinal waves that can be used to send both information and energy and they can be imprinted with information patterns.

CRYSTAL FUSION LIGHT THERAPY

Crystal Fusion Light Therapy is not designed to "fix" or "heal" anyone. It's designed to assist in relaxing, balancing, and/or stimulating as needed. It's a fusion of elements that impacts mind, body, spiritual/energetic, & emotional well-being.
